SHAKESPEARES "MACBETH" COMING TO FITCHBURG STATE COLLEGE

The National Shakespeare Company will present Shakespeare's play of power and prophecy, "MacBeth," at Fitchburg State College on Thursday, September 27 at 8 pm in Weston Auditorium. A free Shakespeare workshop will be open to the public in Percival Auditorium at 1:30 on September 27 and will precede the evening performance.

The National Shakespeare Company, based in New York City, has performed for 22 years, travelling to colleges, universities and community art centers in all 48 continental United States and parts of Canada, reaching upwards of 2.5 million people. Former company members include famous actors Gregory Sierra and Karen Black.

"MacBeth" is Shakespeare's play best known for the prophetic witches and their bubbling caldrons, Lady MacBeth's mad ravings as she tries to wash the blood of the murdered King from her hands while she walks in her sleep, and the duel to the death between MacDuff and MacBeth. The play explores the obsession and corruption which may accompany power, and the far-reaching effects of murder and guilt.

When the company presented "MacBeth" last year in Maine, a Bangor newspaper called the production "wonderfully intense" and "gripping."

The free workshop on September 27 will be conducted by

company performers Mechele Leon and David Scott. The workshop, "Shakespeare's Comedy," will explore forms of character, wit, body humor and situation comedy in Shakespeare's plays, using scenes from "Twelfth Night". The performers will be available for questions after the lecture.

"Admission to "MacBeth" is \$4 to FSC students and \$8 to the general public, and can be purchased at the door or in advance from the Fitchburg State College Campus Center Information Desk (345-2151, ext. 3165). Group rates are available. "MacBeth" is the first production of the College's Performing Art Series, which this season includes Les Ballets Jazz de Montreal on October 18, The Springfield Symphony on February 5, 1985, and Queen Ida and the Bon Temps Zydeco Band on March 7. Series tickets are \$20, a \$10 savings over the price of individuals performances.

The Performing Art Series, sponsored by the college's Student Government Association and the Campus Center, is underwritten by student fees.

BIG E.N.D. MEETING

If you are confused or have questions concerning the issue of Nuclear Arms, come to the next meeting of E.N.D. (Eliminate Nuclear-Madness). The meeting takes place on Wednesday September 26, at 3:30 in room B-26 of the Hammond Building around the corner of the cafeteria serving area.

Here is a chance to get involved in an important national issue, and also to openly discuss your opinions about today's important events.

We need people—the more we have the stronger the voice on campus we have. People need to know about the Nuclear Arms Race and how it really does effect their lives.

MASSPIRG Meeting

MASSPIRG's FSC student chapter will hold its General Interest Meeting Wednesday, September 26 at 3:30 in the Miller Hall Oval Room. MASSPIRG, Massachusetts Public Interest Research Group, is a dynamic and growing organization, giving students opportunities to work on consumer and environmental issues.

If you want more information about MASSPIRG or want to help plan projects for the semester, come to the meeting on Wednesday.

GOVERNOR NAMES TWO NEW TRUSTEES TO FSC BOARD

Governor Michael S. Dukakis has appointed Fitchburg attorney Bayla G. Cornell and Fort Devens training instructor Bernard J. Foley to Fitchburg State College's Board of Trustees.

"These persons will provide increased and valuable guidance for the college," said President Vincent J. Mara. "They have contributed great efforts to their professions and to the improvement of the community. I look forward to their ideas and counsel," he said.

Bayla Cornell is a Fitchburg attorney. She earned her degree at Franklin Pierce Law Center in Concord, New Hampshire and was admitted to the Massachusetts Bar in 1982.

Attorney Cornell was recently appointed co-chairperson of Women In Today's Society, an organization addressing contemporary issues facing women. She is currently a board member of Burbank Hospital Guild and Lunenburg Endowment Fund, a trustee of Fitchburg Law Library Trust, a corporator of Worcester North Savings Bank, and a member of the Principal's Parent Advisory Council of Turkey Hill Middle School in Lunenburg.

Born in Fall River, Cornell has been a resident of Lunenburg for 12 years. She and her husband, Richard Cornell, M.D., have four children.

Bernard Foley is currently Deputy Director of Training and Doctrine at the United States Army Intelligence School at Fort Devens. A graduate of Fitchburg State College, Boston College, Boston University, and the Armed Forces Staff College, Foley is a Fitchburg Councillor-at-Large.

He holds 12 Department of the Army Commendations for "outstanding performance of duty," is a regular contributor to "Military Intelligence Magazine," and is Chairman of St. Bernard's High School Advisory Board in Fitchburg. He is a member of Phi Delta Kappa, the prestigious Education Honor Society.

In the late 1950s, Foley was a Fitchburg State College instructor—first as a student teacher supervisor at Edgerly School and then as principal of D.M. Dillon School. In 1960 he became an education specialist and test psychologist at the U.S. Army Security Agency School at Fort Devens. For 8 years, beginning in 1965, he also

taught courses in the Evening Division at Fitchburg State College.

Foley and his wife Martha J. (Hazel) Foley have four children.

Cornell and Foley officially began the 5-year terms in March 1984. They replace trustees Vincent Antonucci of Leominster and attorney Charles Abdella of Worcester, whose terms expired in March.

The Fitchburg State College

Student Government Association also elected a student representative to the Board: Christopher P. Callahan, of Nashua, New Hampshire, will serve one year.

Other FSC trustees include P. Warren Keating, Chairman; John Grado, Jr., Vice-Chairman; Linda E. Byrne, Secretary; Gerald J. Crowley, Herbert E. Dunnington, William G. Flynn, John E. Howard and Alfred J. LeBlanc.

The Board of Trustees is the governing body of Fitchburg State College, with authority over all personnel, programs, services and property of the college. The Board is governed by the Board of Regents, which supervises and coordinates the activities of the 28 institutions in the public higher education system of Massachusetts. Members of each institution's board of trustees are appointed by the governor.

FSC PROFESSOR RETIRING

A. Orin Leonard, associate professor in the Department of Behavioral Sciences at Fitchburg State College, is retiring after 32 years.

College Vice President of Academic Affairs Patrick F. Delaney honored Dr. Leonard recently at dinner with 14 other college employees. They celebrated 25 or more years of service to the college. Dr. Leonard has been a familiar figure for more than 30 years as the ceremonial mace carrier leading the faculty in convocation and commencement processions.

Born in Springfield, MA, Dr. Leonard holds a B.A. from Wesleyan University and a B.S., a Master's and a Doctorate from Columbia University. He has been listed in four Who's Whos: Library Science, Higher Education, American Men of Science, and Who's Who in the East. He helped start the Council of Community Agencies in Fitchburg and served as a consultant to the United Way Task Force in Human Needs and the College Area Neighborhood Association.

Dr. Leonard received a National Science Foundation Fellowship in Psychology in 1962, was a member of the Board of the Mental Health Association, and acted as faculty sponsor for the college's Mohawks fraternity for many years.

Dr. Leonard organized and chaired the first System-Wide Council of Librarians in Massachusetts, and served as President of the Conference of American Association of University Professors Chapters in Massachusetts. He has also served as President of the Leominster PTA Council.

The senior member of the Department of Behavioral Sciences, Dr. Leonard has served the college since 1952

as an important member of the sociology faculty, helping to develop the department as a new major. He has been an active participant in the Massachusetts Sociological Association, the College General Education Commission, and on department committees. He spent a great deal of time as a representative of the Fitchburg State College Educa-

tion Association and has been negotiating contracts and serving in current activities. He has also been a consultant to a new Sociology Text in 1979.

Dr. Leonard and his wife Betty (Greenfield) recently celebrated 35 years of marriage. They reside on Smith Street in Leominster and have reared three children.

Newsweek Editor To Speak

Larry Quigley

William Cook, senior correspondent for **Newsweek** and senior editor of **Newsweek Access**, will speak on the Fitchburg State campus Wednesday, September 26 at 7:30 pm.

Cook is on a nine-city tour promoting his new book, **The Joy of Computer Communication**, published in paperback September 4th by Dell. We are fortunate in having him present with us the day he is in Boston.

New Library Policy

Beginning with the Fall '84 semester the college library will implement a new policy by requiring that all persons leaving the library open their briefcases and/or bookbags for inspection. This is a policy already in place in many academic and research libraries as a response to an increase in the number of lost books and periodicals. In order to simplify the procedure and infairness to all users it was decided that the policy would be applied uniformly to faculty, students and staff. I appreciate very much your cooperation with what we hope will be a minor inconvenience and hope that an improvement in security will enable us to spend more money for new material rather than replacements.

HEALTH SERVICES MOVES & ADDS ANOTHER PHYSICIAN

The Student Health Service is happy to announce the addition of a new physician to our service. He is Donald Levine of Fitchburg Mass. Dr. Levine is a Fellow in Endocrinology and Metabolism and is an associate of Dr. Carl Johnson also of Fitchburg, who is presently with the Health Service.

The Health Services will be housed in new quarters in the Anthony Building in the former Registrars Office area.

HOUSING AT F.S.C.

The Residence Life Program

The Residence Life Program at Fitchburg State College is one of the finest in Massachusetts, offering a variety of services and programs to assist students with their educational, personal, and developmental needs.

Living Options

Aubuchon Hall

Housing approximately 380 students, Aubuchon Hall is our all female residence facility. The Hall offers a variety of special conveniences. Each floor has a color television, laundry facilities and a kitchen area. The

first floor offers a full kitchen, lounge, and study area.

Russell Towers

Russell Towers, a co-educational facility, houses more than 400 residents. The building is comprised of 36 suites with approximately 12 residents per suite. Each suite has a kitchen and lounge area. This suite arrangement offers a unique opportunity to form close knit communities within the larger Russell Towers community. In addition, each Tower contains lounges with televisions and study areas. A laundry room, bicycle room, weight room, and pool table area are also available to Russell Towers residents.

Herlihy Hall

Herlihy Hall, housing approximately 140 co-educational residents, is the smallest and oldest of our Residence Halls. Its six wings offer lounges and study rooms. A television lounge, full kitchen, large recreation room, and laundry room are located in the basement.

The Town House Apartment Complex

The Town Houses are the newest of our residence facilities. This seven building complex, primarily comprised of upperclass students, is located in a beautifully landscaped area. Each apartment consists of a living/kitchen area, one and

one-half baths and separate bedrooms. The Town Houses offer a very special living opportunity.

Fitchburg State College Off-Campus Housing Office

The Off-Campus Housing Office (OCHO) has two major goals: (1) to assist students, faculty, and staff in their search for adequate and affordable housing; and (2) to provide housing related educational material, advocacy, and mediation for the student-tenant population. These goals are pursued through two areas: listing services and an information/mediation pro-

gram.

Listing Services

The OCHO listing service has been updated through the college computer network via a recently acquired terminal and printer. With this innovation, OCHO has the capability of offering off-campus housing lists as they become available with no time delay as in the past. The list includes apartments for rent, apartments in complexes, houses for rent, rooms for rent, and roommates wanted. In addition, OCHO has, on file, all landlord names and phone numbers who have listed with the office in the past.

Information/mediation service

Within the office, there is also a selection of written material relevant to a variety of housing needs. These include fact sheets, pamphlets and flyers covering numerous issues such as:

- The legal aspects of housing, tenant's rights and obligations, model leases and eviction proceedings.
- The purchase and rental of furniture.
- The location of public transportation, retail establishments and community based programs.
- Comparison of housing by type and community.

Helpful

Info For Tenants

1. Choosing an Apartment
2. Rent Increase
3. Maintenance and Repairs
4. Eviction
5. References and Resources

1. CHOOSING AN APARTMENT

Always inspect an apartment thoroughly before moving in. Get a written commitment from the landlord about any repairs or improvements. If possible, talk to other tenants and find out about living conditions and the landlord's reputation.

Several cities require that vacant apartments be inspected by the Board of Health. Check to see if this is the case in your town.

Always request a written lease and read it very carefully. If there is any clause you do not like, try to get the landlord to cross it out and initial it. If there are any additions, they too should be written in and initialed.

MASSPIRG recommends caution in using any kind of an apartment finder agency. Those agencies that require payment of a fee up front whether or not they find you an apartment should be avoided—many problems have been reported by people who have used them. Even those who charge a fee only if an apartment is found may be an unnecessary expense: you will often be able to find a place on your own without paying someone a fee.

2. RENT INCREASES

In addition to the limitations on rent increases listed below, a landlord cannot raise the rent in retaliation against the tenant for exercising his/her legal rights. Seek legal help if you suspect a retaliatory rent increase.

*Month to Month Tenancy

There is no limit on the amount or frequency of rent increases in such tenancies. However, you should know that a landlord must undertake a long series of proceedings in order to evict you if you do not pay a rent increase. (see evictions,

below). So—if you cannot afford an increase, your landlord may find it in his interest to settle with you for a smaller increase rather than going through lengthy eviction proceedings.

* Term Lease

Where there is a specific period, for example, six months or one year, the landlord cannot increase rent while the lease is still in effect, unless your lease provides to the contrary. However, when the lease period expires, your landlord may increase the rent without limitation for any reason or no reason at all, but, again, if you resist an increase you may be able to bargain for a lower one.

3. MAINTAINANCE AND REPAIRS

If your apartment is in need of repairs, there are several ways to encourage your landlord to make them.

* Make sure the landlord knows what the repairs are. Send a dated letter listing the repairs needed, and keep a copy yourself.

* If the landlord ignores your request, call the Health Department and ask for an inspection. Have a list of needed repairs in hand when the inspector arrives. The inspector will send a list of violations to the landlord and give him/her a period of time in which to make the repairs. If the landlord does not make the repairs, he/she can be prosecuted.

* Another way to get your landlord moving is to withhold the rent until the repairs which are needed are made. There are specific rules about when you can withhold rent. If you plan to withhold, you may want to speak to your local tenant's group or legal aid office.

4. EVICTION

You cannot be evicted from your apartment until the land-

lord goes to court and obtains a judgement against you. There are seven steps in the eviction process; it will take at least 40 days for your landlord to complete those steps and often it will take much longer. Don't allow your landlord to intimidate you into leaving until he/she has followed all the steps and you have had your day in court. Speak to one of the agencies listed below if you are threatened with eviction.

This is the first issue of the F.S.C. newspaper of this fall semester, 1984. A new school year is in full swing and so is a new and large STROBE staff. In this issue we hope to give you an overview of what goes into the paper in the way of campus news. We have professor profiles, student stories, campus board info., coming events, and special features. Also in this issue we have some of the campus basics for newcomers—the housing, the Hammond building, the Health services, and More! Please look for our next issue when we profile the things to do on and around the Fitchburg State campus.

Thanks to Shaun Rouine for supplying us with much of the campus information in this issue from his summer-student handbook-project.

The Campus Center

The Campus Center offers the following services; together they help the Campus Center become a unique, convenient place.

The Info. Desk

This is the main switchboard of the College; it's located just outside the library entrance. You can visit or call the Information Desk at 345-2151 to find out what school-sponsored events are scheduled or where just about anyone on campus can be found. For information about faculty absences or school cancellation call (617) 342-9614 for a recorded message.

The Info. Desk is also where to go for lost and found, jumper cables, and it is where you can pick up the semester and weekly Campus Center Calendars or use the on-campus courtesy phone.

If you have a question about anything having to do with FSC, call the Info. Desk, the person working will find someone who can help you.

The Art Gallery

Three displays of various kinds of artwork are featured at the

Art Gallery each semester. The entrance to the Art Gallery is a stone's throw to the right of the Info. Desk.

Past displays have featured such acclaimed artists and photographers as Miro, Picasso, Adams, and Rothstein as well as many regional artists. Students and faculty may also have work from their photography, graphics and art classes on show at the end of Spring semester. This provides the college community with a chance to witness the innovative, combined talents of FSC.

The Bookstore

Textbooks for your classes are on sale at the Bookstore; graphic supplies, magazines and daily newspapers, clothing with different FSC logos, munchies, sundries, and many other items are also available. If the Bookstore doesn't have something you need, the manager may be able to order it for you.

The Post Office

You are given a new mailbox at the Post Office every September which you can use as your mailing address at the Col-

lege. It is often safer if you live in an off-campus apartment to have your mail delivered to your Campus Center mailbox. On-campus mail (notes from a friend, memos from professors, financial aid notices etc.) will also go to your mailbox.

Although checking your mailbox everyday can be a drag unless you subscribe to a daily newspaper or have a devoted friend who writes all the time, you should open it once in a while to see if there's any news from Financial Aid, lost and found, your advisor, money from home, etc.

Mail is delivered to and goes out from the Post Office at about 11:30 am each weekday. You can send a letter or note to anyone on campus simply by writing their name and box number (if you know it) one the envelope.

To the right of the main entrance are the Games Room and the First Service Bank.

The Games Room

Pool tables, ping pong, pinball machines, video games and board games are available for any student to play in the Games Room. You can also borrow backpacks, canoes, cross country skis, and other recreational equipment for free just by leaving your student ID with the Games Room attendant.

Billiard and ping pong tournaments are also held in the Games Room for sharpshooters and kingpinners.

The First Service Savings Bank

You are welcome to open a handy savings or checking account at First Service. An Instant Teller machine and low interest student loans are services the bank offers for your convenience. The bank hours are 9-4 weekdays and the Instant Teller is open whenever the Campus Center is.

The Commuter's Cafe, the Union Stop Pub and the Crafts Center are in the lower level of the Campus Center.

Commuter's Cafe

The Commuter's Cafe is not just for commuters but for anyone wishing to have breakfast or lunch during the week. The cafe offers hot and cold meals, a salad bar, soups and sandwiches at reasonable prices. During the evening the sub shop is open serving grinders and pizza.

A spacious dining area with a T.V. and piano lounge adjoins the cafe. Here, commuting students from nearby towns often meet on-campus students and students living in the college neighborhood. The dining area remains open at night and is a pleasant alternative in the ??????????to be a place for having informal meetings and study groups.

The Union Stop Pub

On Sunday nights, the Union Stop hosts a coffeehouse which is open to all students. Folk guitarists, comedians, singers and an occasional movie are usually featured to mellow you out and put your mind at ease for the week ahead. Coffee and cake is complimentary.

Monday through Friday night the Union Stop serves beer and wine for upperclassmen. Popcorn and a large screen T.V. help create a speakeasy setting where you can socialize, watch Monday Night Football or Dynasty.

and with instructions for use included, these items:

- Heating Pads
- Crutches
- Canes
- Thomas Collar
- Sling
- Ice Packs

Referral services to medical, dental, and mental health professionals are also available when necessary.

During walk-in hours you should make an appointment as it will save you a long wait; however you may not have to wait at all during those hours

The Union Stop Pub does enforce these rules:

- Only those persons over the current Massachusetts drinking age may be admitted to the Pub when alcohol is being sold.
- Proper identification is necessary for admittance. All students must show a college ID and a Massachusetts driver's license or Registry Card. All guests must also show a Massachusetts driver's license or Registry College.
- Employeee of the Pub may at their discretion refuse service to persons who appear intoxicated or whose behavior disturbs other Pub patrons. Offenders may be asked to leave in both cases.

The Crafts Center Bits and Pieces

Several large meeting rooms off of G-Lobby are used for various lectures and events. There are student offices on the lower level for the Strobe, the Saxifrage (yearbook), Student Government, the Outing Club, Programs Committee and MASSPIRG.

Vending machines, change machines, and pay phones are found throughout the Campus Center. All Campus Center facilities are equipped for handicapped access.

The Campus Center Resource Office (CCRO) prints both a semester and weekly calendar of events so you're never in the dark about what's going on around campus. The CCRO works with the Programs Committee and the Student Affairs Office to provide a wide range of performing arts, films, and special events. The CCRO believes 50% of your education takes place outside of the classroom and offers students information about budgeting, cash handling, alcohol awareness, and has catalogs of various performers to help foster this belief. You can find the CCRO office beyond the ride board—which is in "that big lounge" across from the info desk.

when the Health Service is not busy. Walk-in hours are for non-emergency situations such as immunizations, sprains, flu symptoms, sore throats, etc. which are usually handled by the Nurse Practitioner.

Emergencies

Health emergencies occurring on campus should be referred immediately to the Health Service if they occur between 8:00 am and 4:30 pm. After 4:30 pm you may contact Campus Security, ext. 3111 and make arrangements to be taken to Burbank Hospital.

Life In G-Lobby

The hub of student activity on campus is the Campus Center which, along with the Library, makes up the Hammond Building. If you want to know what contests, trips, parties, or athletic events, are happening, the Campus Center is where to find out.

The ground-floor lobby of the Campus Center, G-Lobby, is a casual student information center where you may see a videotape or poster promoting a jazz musician performing on campus. You may also hear an announcement from the radio station about a free bus going to an away hockey game, or receive a handbill about a Hawaiian luau party in the Pub. You can also see a Christmas crafts display, or displays of fur-

niture constructed by industrial science students. Occasionally G-Lobby is turned into a mini-theater hosting comedians, dancers, or singers. Often it borders on hilarity as brownie eating contests and hairiest leg shows are the order of the day.

Many of these campus cultural highlights are run by the Programs Committee which has its office in the lower level of the Campus Center beyond the Pub. You are welcome to become as involved as you like with the Programs Committee—doing just about anything you wish.

You may help schedule rock bands for Pub or Gym parties by joining the Entertainment Committee; oversee cultural performances and displays on the Performing Arts or Fine Arts Committees, or you can be a part of the committee in charge of showing free, first-run films for FSC students, which are shown in the Campus Center Cinema next to the bank G-Lobby.

Health Services

If you become ill, have a minor accident, or need advice on birth control or other medical information, the Health Service's friendly, efficient staff of certified medical personnel is prepared to serve you.

The Health Service is funded by your Student Health Fee and is organized to meet the health needs of all undergraduate students during the academic year. Be sure to bring your student ID with you when visiting the Health Service.

The Health Service is located in the Sander's Administration Building and the phone number is (617) 345-2151, ext. 3216. The hours are Monday through Friday, 8:00 am to 4:30 pm.

Appointments: 8:00-10:00 am and 1:30-3:00 pm.
Appointments with the M.D.: Mon. and Fri. 12:30-2:30 pm
Tue. 4:00-6:00 pm
Walk-in Hours: 10:00 am - 12:00

noon and 3:00-4:00 pm every day.

Appointments should be made for all non-emergency problems, whenever possible. If you can't keep an appointment, please call so your time can be given to another student.

The Health Service is staffed by:

- A Family Practice Physician available for direct consultation three days a week, and telephone consultation five days a week.
- A full-time Nurse Practitioner certified in family practice who will see patients for medical, gynecological, and orthopedic problems. The Nurse Practitioner will also be available for Family Planning services (by appointment), allergy injections as prescribed by a physician, immunizations, tuberculosis testing, and

blood drawing at the request of your personal physician or a Health Service staff physician.

- A Certified Medical Assistant who is available full-time to assist in office procedures and do lab testing for urinalysis, some gynecological inflections, occult blood, anemia, diabetes, and pregnancy.

All other lab procedures are sent to Burbank Hospital, Nichols Road, Fitchburg, and will be charged to your medical insurance.

Before you begin classes at FSC an admission health history/physical form must be completed by your physician and placed on file in the Health Service to guarantee your continued eligibility. The Health Service personnel themselves do not give routine physical examinations except when they are required for school-related activities such as nursing clinicals and teaching certification.

All of your medical records and Health Service visits are completely confidential. No information is released to anyone, including college authorities or parents, without your prior permission.

DAN NASTARI AT BOX 4554

PRESIDENT MARA CONVENES ACC

President Mara convened the first meeting of the All-College Committee (ACC) on Thursday September 13. He charged the ACC with the responsibility of continuing their excellent record of concern and good judgement in their decision-making capacity.

The first order of business was election of officers. In addition, a new nursing course (preparation for entry into practice) was referred to the Curriculum Committee. Future meetings of the ACC will be held on the first Wednesday of each month in room G-06 of the Campus Center.

The ACC is very important to the governance of the college community, however, most students are unaware of its functions. The ACC makes decisions in such areas as: new course approval, calendars and schedules, academic policies such as add/drop time periods,

and student affairs. Any member of the college community-be it student, faculty or administrator-can and should submit items for consideration. Unfortunately, in the past, few submissions have been generated by students. Students are not taking advantage of one of the most powerful rights they have on campus. If you have any ideas that you would like brought before the ACC, contact the SGA office for details on how to submit your proposal.

The ACC has four standing committees: student affairs, curriculum, long range planning and academic policies. Each of the committees is made up of students, faculty and administrators. Many of the student seats are unfilled. If you are interested in taking an active part in policy-making decisions at Fitchburg State College this is a perfect opportunity to get involved.

by Maureen S. Craig

REVISED ACADEMIC CALENDAR

Fall 1984

Sept.	3	Monday	(Labor Day) Residence Halls open for all students—12:00 noon
	5	Wednesday	Classes begin 8:30 a.m.
	19	Wednesday	Final day for dropping/adding courses Fall Academic Convocation-afternoon classes suspended 1:30
Oct.	3	Wednesday	Final day for making up Incomplete Grades from prev. sem.
	4	Thursday	U.S. & Mass. Constitution examination
	8	Monday	Columbus Day - no classes
	31	Wednesday	Final day for withdrawal from classes without penalty
Nov.	12	Monday	Veteran's Day - no classes
	15	Thursday	U.S. & Mass. Constitution examination

"OPEN HOUSE" SESSIONS

WHO:
You and the President
WHAT:
General Topics of Interest
LOCATION:
President's Conference Room
TIME:
3:30 pm to 5:00 pm
DATE:
Nearly Every Monday
Starting September 17, 1984

September at FSC is change and renewal. The Strobe's in-basket overflows with news from all parts of the campus: the trustees get new members, one of them a student; a well-known professor retires; a student voting registration campaign is launched; the production of MACBETH opens a year of performances and lectures; clubs start organizing; President Mara again offers open house on Mondays.

The Strobe dedicates this

opening issue to the newcomers on campus: the 896 freshmen, the 13 new faculty members, those who have joined the staff. For those who are not yet sure of where to go or how to find what they are looking for on campus, here is a beginning. Let us hear from you. Write to us. Or better yet, join our staff and let us know what you have found. Our goal is to communicate the news on campus and the share its offerings. Have a good year!

FINANCIAL AID REMINDERS

If you have been awarded a National Direct Student Loan or Nursing Student Loan and have not already submitted the required paper work, please do so immediately. This money will not be applied towards your bill or disbursed to you until your loan paperwork has been completed and returned to the Financial Aid Office. If you have any questions, please contact Michelle LeBlanc in the Financial Aid Office.

If you have been awarded a College Work Study job, your employment authorization

form should have been mailed to your campus mailbox. All work study openings are posted in the Financial Aid Office. It is your responsibility to secure a job and return the employment authorization form to the Financial Aid Office along with a job description, as soon as possible. At that time you will sign a Master Payroll Form. No student will be able to get paid until they complete this process. If you have any questions, please contact Nancy Piermarini in the Financial Aid Office.

FSC JUNIOR NAMED TO BOARD OF TRUSTEES

Christopher P. Callahan, of Watertown has been named the student representative to Fitchburg State College's Board of Trustees for the 1984-85 academic year.

Callahan, a junior majoring in Communications/Media at the college, was elected by his fellow students to serve on the college's governing board for a term of one year. Callahan has full voting rights and member-

ship privileges with the other 10 members of the board. Their terms, however, are five years.

An orientation leader for entering freshmen, Callahan has made the Dean's list at Fitchburg State College and served as chairperson of the Student Welfare Committee.

Callahan is also Second Lieutenant in the United States Army, Company A, 101st Infantry, stationed in Waltham.

Voter Registration

REGISTER TO VOTE next week at Fitchburg State College. Student volunteers will run carpools to the Registrar's office and have a registrar on campus at the end of the week.

Fitchburg students taking part in the National Student Campaign for Voter Registration have set a goal of 1200 new student voters.

Volunteers are needed to help run carpools, and assist the registrar. Contact: The Strobe office, in the basement of the Hammond Bldg. to sign up.

"Issues like financial aid and the state of the economy

directly affect students," explained Mike Wagg, member of the NSCVR Fitchburg coalition. "If we want to be represented, we've got to register to vote."

NSCVR began with a 1500 member student conference at Harvard University last February. Sponsored by MASSPIRG. Student leaders across the nation have launched an ambitious campaign to register two million new voters, for the 1984 elections.

GONE WITH THE WIND

By Kimberly A. Beck

BUZZARD'S BAY, CAPE CODE—The multi-colored sails decorated the shores of Basset's island this windy Labor Day weekend with more than twenty windsurfers. It was a spectacular end to the summer.

Five triangle races warmed up the participants, some to the point of exhaustion. Prior to the main event, the race around the island, the winds continued to increase, adding an extra challenge. Spectators were amazed to see the unbelievably fast-paced boards approach the finish in less than one half hour when on an ordinary day it would have taken much longer.

The F.S.C. Library

Robert Frost once defined home as the place where, "when you go there they have to take you in". This same concept of an extended welcome could also be applied to your college library, the primary function of which is to help students locate information and learn some basic research skills.

When you go to the library you will be given information concerning hours of service, rules for borrowing books, periodicals, and microfilms that will be used for your courses. Most important of all, you will have a chance to meet some very friendly people who actually enjoy working with students and are trained to provide assistance. Go on over and tell them Mr. Casey sent you.

WOMEN IN TODAY'S SOCIETY

October 4	Women Supporting Women Judy Norsigian, Norma Swenson, co-authors of <i>Our Bodies Ourselves</i> , Conlon Auditorium, 7:00 pm
December 8	Women's Health Issues Subjects include Infertility, Birth Control, Abortion, Midwifery, Sexually Transmitting Diseases, Breast Cancer, Dealing with Doctors, G-Rooms, 11:30-5:00 pm

April 24	Women & Aging Paula Doress and Diana Siegal Conlon Auditorium, 7-9 pm
May 9	Women Launching Businesses II Conlon Auditorium, 7-9 pm

The Department of Athletics at Fitchburg State College, supported by an athletic fee, offers you the opportunity to participate in activities at the varsity, intramural, and recreational level in order to develop yourself as a person first, a student second, an athlete third, and fourth as a champion.

Intercollegiate

The men's programs include competition in cross country, indoor track, spring track and field, football, soccer, tennis, basketball, ice hockey and baseball. The women's programs consist of teams in cross country, indoor track, spring track

and field, field hockey, tennis, volleyball, basketball and softball. These sports have enjoyed national and regional recognition as highly competitive NCAA Division III teams.

Many student-athletes have been recognized for their athletic achievements being named to various All-American and All-New England teams. In addition, FSC is a member of 10 intercollegiate athletic associations which entitles successful Fitchburg teams to participate in tournament and championship play at the Division III level.

If you are interested in joining one of the athletic teams listed above watch for notices around campus about pre-season team meetings where you can talk to the coaches. You may also visit the Athletic Office where Athletic Director Elizabeth Kruczek and her staff always welcome new members to the Falcons' family of athletes.

Intramurals

An active intramural program offers the opportunity for you to participate in a wide range of sports in an atmosphere that stresses sportsmanship, fun, and enjoyment. Team and individual competition is offered in such sports as volleyball, basketball, bowling, ice/street hockey, football, soccer, and ultimate frisbee. If you are interested in forming a team, rosters can be obtained at the intramural office (Anthony Building). The roster should be

filled out and returned to the office before the scheduled deadline.

Recreation

Recreational activities are provided to all students by recommendations made to the Women's Athletic Association and Men's Intramural Board. These organizations are responsible for such activities as ice/roller skating parties, splash parties, tennis and badminton tournaments, racquetball nights, broom hockey, cross-country skiing and many other sporting events. Open gym and open weight room time is also available throughout the week for you to use when a break from studying is needed.

The Women's Athletic Association and Men's Intramural Board

How do you become a member of the Women's Athletic Association, commonly called W.A.A.? Paying your tuition bill automatically guarantees you a semester of fun and excitement!

This organization plans recreational activities as well as many intramural sports. Put your athletic abilities to use, become involved in W.A.A.!!

You can also join the Men's Intramural Board. The M.I.B. consists of a small group of elected male students who organize and run the intramural athletic events for the college community. Participation through fierce but fun competition is greatly rewarded in events such as soccer, basketball, ice hockey, ultimate frisbee, and a weightlifting tournament.

Facilities

Parkinson Gymnasium contains the weight room for training and conditioning purposes and the office of the certified Athletic Trainer. Outdoor facilities for the athletic programs, located at the Robert G. Eliot Complex on Pearl Hill Road, include fields for soccer, football, field hockey, baseball and intramurals. Also available is a chem-turf track, tennis courts, and outdoor basketball courts which double as ice skating rinks during the winter season.

At McKay campus school, the gymnasium is utilized for intramural activities and on the grounds, is our new varsity softball diamond. All ice programs are held at the George Wallace Civic Center. The offices of the Department of Athletics are housed in the Anthony Building on the main campus directly across from Campus Security.

To play on an athletic team you must make "satisfactory progress toward a baccalaureate degree."

"NOIZY BOYZ" and "FORCED VALUES"
in our own F.S.C. PUB!!
September 29 at 7:30
\$3.00 at the door or buy a ticket in G-Lobby
2 positive I.D.s required
sponsored by Programs and W.F. R.C.
Bring your dancing shoes and your best smile because channel 3 T.V. will be there, too!!!

From the pleasant waters of Cape Cod Bay to the tropical shores of the islands of Hawaii, windsurfing has become the summer sport of the 1980's. Because of this growth and popularity, it became an olympic event this year.

It appears that a great deal of strength is required to participate when it is actually a combination of self-control, dedication and stamina. The many hours of practice to learn this sport are discouraging. But somehow the excitement and thrill of sailing across the water with your own strength and ability is reward enough to persevere.

When accomplishment is felt a happy windsurfer is known by the seaweed seen between his teeth.

joy working with students and are trained to provide assistance. Go on over and tell them Mr. Casey sent you.
